

Flex 11:

the Software that makes HoverCam's doc cams a multi-tool in class- and seminar-rooms.

Record HD video at 30 fps without lag or delay

saving it directly to the computer, which is easy for teachers to share with students (just drag and drop the video file into Google Classroom, your LMS, etc.) it's a video and lesson recorder that includes a microphone to capture sound

Screen recording, including picture-in-picture

(if you want to show your talking head which many K-6 teachers appreciate) while narrating lesson with camera video images, websites, PowerPoint Slides, voice recording and annotation (It's a lesson recorder)

Works with leading interactive softboard packages, such as SMART Notebook or Promethean. "Slingshot" the camera image into any whiteboard software, email, document, any program with just one click without leaving the program.

Scan multiple pages into a single PDF file. (It's a scanner). Motion sensor scanning; motion sensor photography.

Includes "time-lapse" and "slow motion" video recording useful for science classes.

HoverCam

Lossless zoom using our ASR (Adaptive Sensor Resolution) image processing techniques to zoom without loss of quality. HoverCam has pioneered the patent-pending ASR Zoom technology which achieves the equivalent of 8x optical zoom. This eliminates the need for expensive and bulky lenses while making the zooming and panning operation highly responsive and easy to use.

Includes “whiteboard software” for common whiteboard functions.

Includes “annotation software” to annotate over any image on the screen.

Use with Google Hangouts, Skype (Mystery Skype), Zoom conferencing and distance learning (it's a high-quality webcam)

True 4K resolution @30 fps

1080p @60 fps

“Warp Speed” mode 720p @120 fps

MSI install package available for district wide software deployment
